## Report of Superintendent of Schools.

*To the School Board of Newington:*

I hereby submit to you my fifth annual report as superintendent of the Newington Schools.

No change has been made in the administration of the Schools this year. The same teachers have been employed as last year, and their added experience has made possible the increased efficiency of their work.

We are gradually increasing the equipment of the schools and have added during the past year many library and reference books.

The number of pupils has fallen somewhat below that of last year and at present the total enrollment is 46, giving to each teacher 23 pupils and four grades.

The greatest hindrance to effective work in the Newington Schools is irregular attendance. In my weekly bulletin showing the comparative attendance and punctuality in the schools of my union of seven towns; Newington usually stands at the bottom.

The comparative long distance which many of the pupils have to travel to school may account for some of this irregularity, yet it is not always the pupils living the farthest away who are most irregular in attendance. Parents need to realize that their children cannot do good work in school unless their attendance is regular. Pupils are allowed to stay at home from school for many insufficient reasons, such as bad travelling, slightly stormy conditions of rain or snow, absence from town with the parents on visits, attendance at fairs or shopping tours.

Parents must be willing to make some sacrifice of their own pleasure and convenience for the sake of the welfare of their children. Illness on the part of a child is of course an acceptable reason for absence but a great deal of illness of children is avoidable and parents should study so as to prevent their children from having needless cases of sickness. A school nurse can do much in assisting parents in this endeavor.

Each year several children failed of promotion because of

absence due to sickness. This repetition of grades on the part of the pupils costs many dollars to the school system. Much of this expense could be prevented by a capable nurse, and I therefore recommend that the town hire a school nurse to devote to Newington at least 1/2 day every two weeks.

In order that the pupils may be grouped for more efficient work during recitations in the grammar room, I recommend that settees or study arm chairs be provided for the North room.

According to the State School Department the average cost per pupil in Newington schools for the school year 1928-1929 was \$86.54. The median cost for the State was \$83.35.

The average amount per \$1000 valuation expended on schools in Newington for the same year was \$8.30. 82 towns out of 244 in the State expended less than Newington for this purpose.

I assure you of our interest and desire to make your schools as efficient as possible.

Respectfully submitted,

CHARLES N. PERKINS,

*Superintendent.*

## School Report.

---

*To the Citizens of the School District of Newington:*

We herewith submit the annual report of the School Board.

Beginning our fall term we were fortunate in having again the services of Miss Madeline Hardy to teach the fifth, sixth, seventh and eighth grades, also Miss Margaret Pickering to teach the first, second, third and fourth grades.

We find our teachers interested and efficient in their work and an appreciable devotion between teacher and scholar.

Mrs. Mary E. Poore was again chosen as teacher in music and singing. Mrs. Poore has been in charge of music and singing in our school for several years and has established a reputation of the best, and we are proud to have her as our teacher.

Mr. Charles N. Perkins was re-elected superintendent at the last meeting of the Supervising Union, held at Hampton, N. H. Our School Board being present in full quota, all voted in favor of Mr. Perkins.

Mr. Perkins was elected by nearly a unanimous vote which is a very good sign that he is master of the position.

We would like to see more parents visit our school and become better acquainted with our teachers and the methods of instruction.

We gladly welcome any suggestions that will help make a better school or better scholars.

Respectfully submitted,

J. MANNING HOYT,  
MAURICE E. ROBINSON,  
ROSAMOND M. PACKARD.
